

Do the following if your child is well enough:

Daily 30 minutes each: reading, number, activity (dancing, exercises, trampoline in garden, etc.). Keep to daily routine of breakfast, dressed, bedtimes, etc.

Read a book or chapter in a book and retell making puppets	Keep a video diary of what you have been doing daily	Bake or cook for your family and write up the recipe or put it on a google doc	Write a review for a game that you play – why should others play it?	Design a vehicle which is kind to the planet but is effective to drive. Record as a labelled diagram	Take daily photos of a plant, shrub or tree in your garden and note any changes you see as spring starts
Record the temperatures daily at 9am at your front door. Make a graph each week	Sit at an open window or on your doorstep and listen to all the sounds you can hear	Count how many vehicles go past your window each day for a week at the same time. What do you notice?	Find as many right angles in your house as you can and list where you found them!	How many rectangles and cylinders can you find in your house?	Time yourself: 10 star jumps, 10 sit ups and 10 press ups. Do you get quicker with practice?
Do a secret good deed for someone in your house	Write a letter thanking someone for something he/she has done for you	Learn how to do a household chore like making a bed, cleaning a sink, etc	Do some weeding in the garden or watering of house plants under supervision	Wash/dry dishes/load/unload dishwasher	Read to an elderly person or younger person
Have no electronics for at least half an hour daily	Listen to some classical music and breathe deeply and slowly for ten minutes	With permission, put a collage together of photos from when you were a baby until now	Do a mindmap or draw a self portrait (or mindmap if using ChromeBook) of your qualities and things you need to work on	What skill you have been developing since August? Draw or write about how you have demonstrated persistence and overcome difficulties	Make sure you wash your hands regularly. Have a study of your hands..can you sketch them? Freckles, lines, knuckles the lot!
Look up where the continents of the world are and name them	Write down or discuss with a family member 10 ways you use plastic and what you could use instead	Make sure all lights are switched off and doors closed each time you move around the house	Use the time to look at your wardrobe and see if any clothes can be recycled or put to second hand shop	Find out about an endangered species and why they are almost extinct	Check that your rubbish is put in the correct bin: food waste, recycling and general waste
